

CYCOLAC® S157

Europe-Africa-Middle East: COMMERCIAL

ABS Resin

CYCOLAC S157 is a high flow flame retardant ABS with excellent processability developed for applications requiring UL94 V0 at reduced wall thickness.

Features

Flame Retardant

Ball Pressure Test, approximate maximum	80	°C	IEC 60695-10-2

1) Typical values only. Variations within normal tolerances are possible for various colours. All values are measured at least after 48 hours storage at 23°C/50% relative humidity.
All properties, except the melt volume rate are measured on injection moulded samples.
All samples are prepared according to ISO 294.

2) Only typical data for material selection purpose. Not to be used for part or tool design.
3) This rating is not intended to reflect hazards presented by this or any other material under actual fire conditions.
4) Own measurement according to UL.
