To Whom It May Concern:

Dear Valued Customer:

In response to your request for information regarding the status of CYCOLAC* resin GX3800F, with respect to the **European Union Directive RoHS 2002/95/EC**, GE Plastics can provide the following information.

Heavy metals and heavy metal compounds of lead (Pb), cadmium (Cd), mercury (Hg), hexavalent chromium (Cr VI) and flame retardant systems based on polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE), including penta bromodiphenyl ethers, decabromodiphenyl ethers (DBDE) and octa bromodiphenyl ethers are not employed in the manufacture of subject resin.

Subject resin complies with the requirements of **EU Directive RoHS 2002/95/EC**.

Please be advised that trace levels of heavy metals may be present as impurities, within threshold limits

(0.1% for Pb, Hg, Cr VI, PBB and PBDE and <0.01% for Cd).
