

# Cycoloy\* Resin C1100HF **Europe-Africa-Middle East: COMMERCIAL**

CYCOLOY C1100HF is the improved flow version of CYCOLOY C1100 and has been developed to better fill long and complex parts while maintaining still excellent mechanical properties. Its superior flow will enhance productivity and appearance of the finished parts.

| TYPICAL PROPERTIES 1                        | TYPICAL VALUE | UNIT      | STANDARD    |
|---|---------------|-----------|-------------|
| MECHANICAL                                  |               |           |             |
| Taber Abrasion, CS-17, 1 kg                 | 81            | mg/1000cy | GE Method   |
| Tensile Stress, yield, 5 mm/min             | 55            | MPa       | ISO 527     |
| Tensile Stress, break, 5 mm/min             | 45            | MPa       | ISO 527     |
| Tensile Stress, yield, 50 mm/min            | 55            | MPa       | ISO 527     |

Typical values only. Variations within normal tolerances are possible for variose colours. All values are measured at least after 48 hours storage at 230C/50% relative humidity.
 All properties, expect the melt volume rate are measured on injection moulded samples.
 All samples are prepared according to 1SO 294.

<sup>2)</sup> Only typical data for material selection purpose. Not to be used for part or tool design.
3) This rating is not intended to reflect hazards presented by this or any other material under actual fire conditions.
4) Own measurement according to UL.
