

SABIC® LLDPE M300024

LINEAR LOW DENSITY POLYETHYLENE

DESCRIPTION

SABIC® LLDPE M300024 is a linear low density polyethylene copolymer injection moulding and master-batch grade with a narrow molecular weight distribution. It has been typically designed to have good low temperature toughness, stress crack resistance (ESCR) and gloss.

TYPICAL APPLICATIONS

SABIC® LLDPE M300024 is typically used for injection moulding of large items where high flow and fast cycles are required such as housewares, trash cans, automotive parts, lids and large industrial containers.

This product is not intended for and must not be used in any pharmaceutical/medical applications.
