

SAFETY DATA SHEET

Print date: 10-Sep-2014 Revision Number: 1 Revision date: 10-Sep-2014

1. IDENTIFICATION OF THE SUBSTANCE AND COMPANY

Trademark: LEXAN™ **Product Code:** 103RP -111N **Product Description:** Poly (bisphenol-A-carbonate) [CASRN 111211-39-3] Commercial Product **Product Type:** May be used to produce molded or extruded articles or as a Recommended use: component of other industrial products. Company: **SABIC Innovative Plastics** One Plastics Avenue Pittsfield, MA 01201 USA (413) 448-5800 www.sabic-ip.com SABIC Innovative Plastics Manufacturer: 1 Lexan Lane Mt. Vernon, Indiana 47620 **United States** -and/or-**SABIC Innovative Plastics** 1 Plastics Drive Burkville, Alabama 36752 **United States**

Emergency Telephone Number: 800/447-4545

Emergency Transportation/CHEMTREC 800 424-9300 (USA)

(24 HOUR): +1 703-527-3887 (globally, outside USA)

E-mail: productinquiries@sabic-ip.com

Website Address: www.sabic.com

2. COMPOSITION/INFORMATION ON INGREDIENTS

If present, components listed above are physical or health hazards as defined in the Hazard Communication Standard. The quantities represent typical or average values for the materials shown. Additional compositional data are provided in Section 15, REGULATORY INFORMATION.

Product Name: 103RP-111N Page 1 of 9 Revision date: 10-Sep-2014

3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW:

- · Pellets with slight or no odor
- · Spilled material may create slipping hazard
- · Can burn in a fire creating dense, toxic smoke
- Molten plastic can cause severe thermal burns
- Fumes produced during melt processing may cause eye, skin, and respiratory tract irritation. Severe over-exposure may result in nausea, headache, chills, and fever. See below for additional effects.
- Secondary operations, such as grinding, sanding, or sawing can produce dust which may present an explosion or respiratory hazard

'	nazara.					
HMIS Rat	ting I	Health: 0	Flammability:	1	Reactivity: 0	
Sk	in Contact:		No	ot a hazard	with pellets during normal industrial use.	
Ey	e Contact:			esin particle eyes.	es, like other inert materials, are mechanically irritati	ng
Inh	Inhalation: Ingestion: Sensitization:		Pe	ellet inhalati	ion unlikely due to physical form.	
Ing			Pe	ellet ingestio	on unlikely due to physical form.	
Se			No	informatio	on available on this product	
Oti	her Information:		cry pre ma are the	stalline sili esent in son aterials are e shown in e plastic ma	and/or NTP have listed carbon, titanium dioxide, ica (quartz), respirable glass and certain heavy metame colorants and fillers, as carcinogens. If these present in this product at significant quantities, they Section 2/3. These materials are essentially bound atrix and are unlikely to contribute to workplace der recommended processing conditions	,

Ch	ronic Toxicity:		No	informatio	on available	
Pro	ocessing Issues:		res hea cor	spiratory tra adache car ndensates	rapors may cause irritation to the eyes, skin, and act. In cases of severe exposure, nausea and in also occur. Grease-like processing vapor on ventilation ductwork, molds, and other surfaces ritation and injury to skin.	
Ag	ggravated Medica	Conditions:	agg ind	gravated b	ESTRICTIONS: There are no known health effects by exposure to this product. However, certain sensiting individuals with respiratory impairments may be exposure to components in the processing vapors.	∕e

Product Name: 103RP-111N Page 2 of 9 Revision date: 10-Sep-2014

4. FIRST AID MEASURES

If Inhalation: Move to fresh air in case of accidental inhalation of fumes from

overheating or combustion. If symptoms persist, call a physician.

On skin contact: Immediately cool the skin by rinsing with cold water after contact

with hot material. Wash off immediately with soap and plenty of

water. Consult a physician.

On contact with eyes: Immediately flush with plenty of water. After initial flushing, remove

any contact lenses and continue flushing for at least 15 minutes. If

eye irritation persists, consult a specialist.

On ingestion: No hazards which require special first aid measures.

Precautions: Processing vapors inhalation may be irritating to the respiratory

tract. If symptoms are experienced remove victim from the source of contamination or move victim to fresh air and obtain medical

advice.

5. FIRE-FIGHTING MEASURES

Autoignition Temperature: 630°C (1166°F), estimated

Explosive Limits

upper: Not determined lower: Not determined

Suitable Extinguishing Media: Use dry chemical, CO2, water spray or "alcohol" foam. Water is the

best extinguishing medium. Carbon dioxide and dry chemical are not generally recommended because their lack of cooling capacity may permit re-ignition on larger resin fires (blobs, drools, etc.).

Unsuitable Extinguishing Media for Safety Reasons: Do not use a solid water stream as it may scatter and spread fire.

Hazards from Combustion Products: Fire will produce dense black smoke containing hazardous

combustion products, carbon oxides, hydrocarbon fragments.

Special Protective Equipment for Firefighters: Do not enter fire area without proper protection including self-

contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products

Specific Hazards: Take precautionary measures against static discharges. During

processing, dust may form explosive mixture in air. Thermal decomposition can lead to release of irritating gases and vapors.

6. ACCIDENTAL RELEASE MEASURES

Clean up: Sweep up and shovel into suitable containers for disposal. Do not

create a powder cloud by using a brush or compressed air.

Personal Precautions: See section 8.

Environmental Precautions: Do not flush into surface water or sanitary sewer system. Material

should not be released into the environment.

Product Name: 103RP-111N Page 3 of 9 Revision date: 10-Sep-2014

7. HANDLING AND STORAGE

Handling: Handle in accordance with good industrial hygiene and safety practices. Provide for

appropriate exhaust ventilation and dust collection at machinery. Avoid dust formation. All

metal parts of the mixing and processing equipment must be earthed.

Storage: Store in closed container in a dry and cool area. Keep away from

heat sources and sources of ignition.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No components with information, unless noted below

Engineering Measures to Reduce Exposure: Handle in accordance with good industrial hygiene and safety

practice. Provide for appropriate exhaust ventilation at machinery. Processing fume condensate may be a fire hazard and toxic; remove periodically from exhaust hoods, ductwork, and other

surfaces using appropriate personal protection.

Hand Protection: Protective gloves should be worn

Eye Protection: Safety glasses with side-shields or chemical goggles. In addition,

use full-face shield when cleaning processing vapor condensates

from hood, ducts, and other surfaces.

Respiratory Protection: When using this product at elevated temperatures, implement

engineering systems, administrative controls or a respiratory protection program (including a respirator approved for protection from organic vapors, acid, gases, and particulate matter) if processing vapors are not adequately controlled or operators experience symptoms of overexposure. If dust or powder are produced from secondary operations such as sawing or grinding,

use a respirator approved for protection from dust.

Body Protection: Long sleeved clothing

Hygiene Measures: When using, do not eat, drink or smoke.

Product Name: 103RP-111N Page 4 of 9 Revision date: 10-Sep-2014

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Solid Appearance: Pellets

Color: Same as color code
Odor: None or slight

Melting point/range: This product does not exhibit a sharp melting point but softens

gradually over a wide range of temperatures.

Autoignition Temperature: 630°C (1166°F) estimated

Vapor Pressure:NegligibleWater Solubility:InsolubleEvaporation Rate:Negligible

Specific gravity: >1; (water = 1)
VOC content (%): Negligible

Explosive Limits

upper: Not determined lower: Not determined

10. STABILITY AND REACTIVITY

Stability: Stable under ambient conditions. Hazardous polymerization does

not occur.

Conditions to Avoid: Avoid temperatures above 630°C. To avoid thermal decomposition,

avoid elevated temperatures. Heating can result in the formation of

gaseous decomposition products, some of which may be

hazardous. Do not exceed melt temperature recommendations in product literature. Purgings of hot material should be collected in small, flat, thin shapes and quenched with water to allow for rapid cooling. Do not allow product to remain in barrel at elevated

temperatures for extended periods of time.

Hazardous Decomposition Products: Process vapors under recommended processing conditions may

include trace levels of hydrocarbons, phenols, alkylphenols,

diarylcarbonates.

Product Name: 103RP-111N Page 5 of 9 Revision date: 10-Sep-2014

11. TOXICOLOGICAL INFORMATION

Acute Toxicity

Waste Disposal:

LD50/oral/rat: >5000 mg/kg LD50/dermal/rabbit: >2000 mg/kg Inhalation: Pellet inhalation unlikely due to physical form. **Eve Contact:** Resin particles, like other inert materials, are mechanically irritating to eyes. **Skin Contact:** Not a hazard with pellets during normal industrial use. Ingestion: Pellet ingestion unlikely due to physical form. No information available **Chronic Toxicity:** No information available **Subchronic Toxicity: Primary Irritation:** Substance does not generally irritate and is only mildly irritating to the skin. IARC: Not listed OSHA: Not regulated NTP: Not tested Remarks: The toxicological data has been taken from products of similar composition. **Special Studies:** No Information 12. ECOLOGICAL INFORMATION **Ecotoxicity Effects:** Do not flush into surface water or sanitary sewer system. Other information: Ecological damages are not known or expected under normal use. 13. DISPOSAL CONSIDERATIONS

Recycling is encouraged. Landfill or incinerate in accordance with federal, state and local requirements. Collected processing fume condensates and incinerator ash should be tested to determine waste classification.

Product Name: 103RP-111N Page 6 of 9 Revision date: 10-Sep-2014

14. TRANSPORT INFORMATION

Transport Classification:	Not regulated as hazardous for shipment, unless noted below, under current transportation guidelines.
DOT	
ADR/RID/ADN	
<u>IMDG</u>	
ICAO	
IATA-DGR	
MEXICO	
CANADA/TDG	

Product Name: 103RP-111N Page 7 of 9 Revision date: 10-Sep-2014

15. REGULATORY INFORMATION

International Inventories:

TSCA (USA): Listed DSL (Canada): Listed **EINECS/ELINCS (Europe):** Listed ENCS (Japan): Listed IECSC (China): Listed KECL (Korea): Listed PICCS (Philippines): Listed AICS (Australia): Listed NZIoC (New Zealand): Listed

Other Inventory Information:

A "Listed" entry above means all chemical components are on the respective inventory list and/or a qualifying exemption exists for one or more components. A "Not listed" entry above indicates one or more components is restricted from import or manufacture into that country/region. Articles are exempt from registration and are therefore not listed on the national chemical inventories.

SVHC (REACH Regulation (EC) No 1907/2006 and 453/2010, as amended):

This product does not intentionally contain SVHC chemicals except as noted below. Incidental amounts of impurities, if present, would be below the threshold limit of 0.1% by weight.

SARA (313) Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA):

This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

SARA (311, 312) hazard class:

Acute Health Hazard N
Chronic Health Hazard N
Fire Hazard N
Sudden Release of Pressure Hazard N
Reactive Hazard N

Canada - WHMIS Classification:

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR. Unless noted below, this product is non-controlled. Some classifications may not apply to the entire product.

California Proposition 65:

This product does not contain components known to the State of California to cause cancer and/or reproductive effects.

RoHS EU Directive 2002/95/EC (and its amendments and directive 2011/65/EU):

The subject product is in compliance with EU RoHS Directive 2002/95/EC (and its amendments and directive 2011/65/EU). All below chemicals are not employed in the manufacture of the product: a.Cadmium and its compounds, b.Lead and its compounds, c.Mercury and its compounds, d.Hexavalent chromium compounds, e.Polybrominated biphenyls (PBBs), f.Polybrominated diphenyl ethers (PBDEs including Deca-BDE). The trace levels of heavy metals may be present as impurities within threshold limits (<0.1% for Pb, Hg, Cr VI, and <0.01% for Cd). We are disclosing this information, to the best of our knowledge, based upon data from our raw material manufacturers.
