

SAFETY DATA SHEET According to Regulation (EC) No 1907/2006 and 453/2010 (REACH)

Print date: 21-Jun-2013 Revision Number: 5 Revision date: 21-Jun-2013

1. IDENTIFICATION OF THE SUBSTANCE AND THE COMPANY

Website Address:	www.sabic.com
E-mail:	sds.info@sabic-europe.com
Emergency Telephone Number:	SITTARD +31 (0)46 476 55 55 (0h - 24h)
Manufacturer:	SABIC P.O. Box 5101 Riyadh 11422 Saudi Arabia
Company:	SABIC SALES Europe B.V. or any of its Affiliates Europaboulevard 1, 6135 LD SITTARD P.O. Box 5151, 6130 PD SITTARD The Netherlands
Recommended use:	May be used to produce molded or extruded articles or as a component of other industrial products.
Product Type:	Commercial Product
Trademark: Product Name: Product Description:	SABIC® PP 49MK45 -00900 Poly (propylene-ethylene) [CASRN 9010-79-1]

Product Name: 49MK45-00900 Page 1 of 7 Revision date: 21-Jun-2013

2. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW:

- · Granules with slight or no odor
- · Spilled material may create slipping hazard
- · Can burn in a fire creating dense, toxic smoke
- Molten plastic can cause severe thermal burns
- Fumes produced during melt processing may cause eye, skin, and respiratory tract irritation. Severe over-exposure may result in nausea, headache, chills, and fever. See below for additional effects.
- Secondary operations, such as grinding, sanding, or sawing can produce dust which may present an explosion or respiratory hazard.

Skin Contact:	Not a hazard with granules during normal industrial use.

Eye Contact: Resin particles, like other inert materials, are mechanically irritating

to eyes.

Inhalation: Granule inhalation unlikely due to physical form.

Ingestion: Granule ingestion unlikely due to physical form.

Other Information: Cool skin rapidly with cold water after contact with molten material.

Heating can release hazardous gases. Hazardous fumes can also

occur in post-processing operations.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Not a hazardous substance or preparation according to EC-directives 1999/45/EC and 1272/2008/EC unless indicated.

Remarks: This product consists primarily of high molecular weight polymers which are not expected to be

hazardous. The ingredients in this product are present within the polymer matrix and are not

expected to be hazardous.

4. FIRST AID MEASURES

If Inhalation:Move to fresh air in case of accidental inhalation of fumes from overheating or combustion. If symptoms persist, call a physician.

eventualing of combaction. It symptoms person, can a physician.

On skin contact: Immediately cool the skin by rinsing with cold water after contact

with hot material. Wash off immediately with soap and plenty of

water. Consult a physician.

On contact with eyes: Immediately flush with plenty of water. After initial flushing, remove

any contact lenses and continue flushing for at least 15 minutes. If

eye irritation persists, consult a specialist.

On ingestion: No hazards which require special first aid measures.

Precautions: Cool molten product on skin with plenty of water. Do not remove

solidified product. Do not peel polymer from the skin.

Product Name: 49MK45-00900 Page 2 of 7 Revision date: 21-Jun-2013

5. FIRE-FIGHTING MEASURES

Autoignition Temperature:	>300°C

Explosive Limits

A.... - ! ---- ! ! ! - -- T - --- - - - - 1

upper: Not determined lower: Not determined

Suitable Extinguishing Media: Use dry chemical, CO2, water spray or "alcohol" foam. Water is the

best extinguishing medium. Carbon dioxide and dry chemical are not generally recommended because their lack of cooling capacity may permit re-ignition on larger resin fires (blobs, drools, etc.).

Unsuitable Extinguishing Media for Safety Reasons: Do not use a solid water stream as it may scatter and spread fire.

Hazardous Decomposition Products: Fire will produce dense black smoke containing hazardous

combustion products, carbon oxides.

Hazards from Combustion Products: Fire will produce dense black smoke containing hazardous

combustion products, carbon oxides, hydrocarbon fragments.

Special Protective Equipment for Firefighters: In the event of fire, wear self-contained breathing apparatus (EU:

NEN-EN137).

Specific Hazards: Take precautionary measures against static discharges. During

processing, dust may form explosive mixture in air. Thermal decomposition can lead to release of irritating gases and vapors.

6. ACCIDENTAL RELEASE MEASURES

Clean up: Sweep up and shovel into suitable containers for disposal. Do not

create a powder cloud by using a brush or compressed air.

Personal Precautions: See section 8. If spilled, take caution, as material can cause

surfaces to become very slippery.

Environmental Precautions: Do not flush into surface water or sanitary sewer system. Material

should not be released into the environment.

7. HANDLING AND STORAGE

Handling: Handle in accordance with good industrial hygiene and safety

practices. Provide for appropriate exhaust ventilation and dust

collection at machinery. Minimize dust generation and

accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as

electrical grounding and bonding, or inert atmospheres.

Storage: Store in a dry and cool area. Keep away from heat sources and

sources of ignition. Keep away from direct sunlight.

Product Name: 49MK45-00900 Page 3 of 7 Revision date: 21-Jun-2013

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No components with information, unless noted below

*SABIC Recommended Exposure Limits have been established for certain chemicals.

Engineering Measures to Reduce Exposure: In the case of hazardous fumes, wear self-contained breathing

apparatus. Wear face-shield and protective suit for abnormal processing problems. Handle in accordance with good industrial hygiene and safety practice. Provide for appropriate exhaust

ventilation at machinery.

Hand Protection: Protective gloves should be worn. (EU: NEN-EN 374). When

handling hot material, wear heat-resistant protective gloves that are

able to withstand the temperature of molton resin.

Eye Protection: Safety glasses with side-shields. (EU: NEN-EN 165-166).

Respiratory Protection: In the case of hazardous fumes, wear self contained breathing

apparatus. In case of insufficient ventilation wear suitable

respiratory equipment. (EU: NEN-EN149).

Body Protection: Long sleeved clothing (EU: NEN-EN 340-369-465).

Hygiene Measures: When using, do not eat, drink or smoke.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Solid
Appearance: Granules

Color: Same as color code Odor: Characteristic

Boiling point/range: decomposition starting from 300°C

Melting point/range: 140-170°C (284-338°F)

Autoignition Temperature:>300°CVapor Pressure:Negligible

Density: 0.905-0.930 g/cm³

Water Solubility: Insoluble Evaporation Rate: Negligible

VOC content (%): Negligible

Explosive Limits

upper:Not determinedlower:Not determined

Product Name: 49MK45-00900 Page 4 of 7 Revision date: 21-Jun-2013

10. STABILITY AND REACTIVITY

Stability: Stable under ambient conditions. Hazardous polymerisation does

not occur.

Conditions to Avoid: Avoid temperatures above 300°C. Heating can result in the

formation of gaseous decomposition products, some of which may be hazardous. Do not exceed melt temperature recommendations in product literature. Purgings of hot material should be collected in small, flat, thin shapes and quenched with water to allow for rapid cooling. Do not allow product to remain in barrel at elevated

temperatures for extended periods of time.

Hazardous Decomposition Products: Process vapors under recommended processing conditions may

include trace levels of hydrocarbons, carbon oxides.

11. TOXICOLOGICAL INFORMATION

LD50/oral/rat: >5000 mg/kg

LD50/dermal/rabbit: >2000 mg/kg

Subchronic Toxicity: No information available

Primary Irritation: Substance does not generally irritate and is only mildly irritating to

the skin

Remarks: The toxicological data has been taken from products of similar

composition.

Special Studies: No Information

12. ECOLOGICAL INFORMATION

Ecotoxicity Effects: Ecological damages are not known or expected under normal use.

Small particles can have an effect on water and soil organisms.

Other information: Ecological damages are not known or expected under normal use.

13. DISPOSAL CONSIDERATIONS

Waste from residues / unused products: Where possible recycling is preferred to disposal or incineration.

Dispose of in accordance with local regulations.

Contaminated Packaging: Empty containers should be transported/delivered using a

registered waste carrier for local recycling or waste disposal

EWC waste disposal no: 702 - waste from the manufacture, formulation, supply and use of

plastics, synthetic rubber and man-made fibres.

Product Name: 49MK45-00900 Page 5 of 7 Revision date: 21-Jun-2013

14. TRANSPORT INFORMATION

Transport Classification:

Not regulated as hazardous for shipment, unless noted below, under current transportation guidelines.

DOT

ADR/RID/ADN

IMDG

ICAO

IATA-DGR

15. REGULATORY INFORMATION

Further regulatory information can be requested via your local sales office.

International Inventories:

TSCA (USA): Listed DSL (Canada): Listed ENCS (Japan): Listed IECSC (China): Listed KECL (Korea): Listed PICCS (Philippines): Listed AICS (Australia): Listed NZIoC (New Zealand): Listed

REACH Information: For this product's REACH related information, please contact sds.info@sabic-europe.com

Other Inventory Information:

A "Listed" entry above means all chemical components are on the respective inventory list and/or a qualifying exemption exists for one or more components. A "Not listed" entry above indicates one or more components is restricted from import or manufacture into that country/region. Articles are exempt from registration and are therefore not listed on the national chemical inventories.

Product Name: 49MK45-00900 Page 6 of 7 Revision date: 21-Jun-2013

16. OTHER INFORMATION

SABIC® PP is a registered trademark of Saudi Basic Industries Corporation

SDS Scope:

Europe: Conforms to Regulation (EC) No 1907/2006 and 453/2010 (REACH)

This document is also applicable in other countries and regions.

Prepared by: Product Stewardship & Toxicology

DISCLAIMER: The information contained in the Safety Data Sheet is at the date of its issuance to the best of our knowledge correct according to the data available to us. The information is meant as a guideline for safe use, handling, disposal, storage and transport of products and does not imply any warranty (not implied nor explicitly) or specification. The Supplier shall to the extent permitted by law not be liable for any error or incorrectness in the information contained in this Safety Data Sheet. The information relates exclusively to the specified products, which may not be suitable for combination with other materials or use in processes other than those specifically described here.
