

SAFETY DATA SHEET

Print date: 05-Dec-2012 Revision Number: 2 Revision date: 05-Dec-2012

1. IDENTIFICATION OF THE SUBSTANCE AND COMPANY

Trademark: COLORCOMP*
Product Name: M1000 -GY5A730

Product Description: Polypropylene [CASRN 9003-07-0]

Product Type: Commercial Product

Recommended use:May be used to produce molded or extruded articles or as a

component of other industrial products.

Company: SABIC Innovative Plastics

One Plastics Avenue Pittsfield, MA 01201 USA

(413) 448-5800 www.sabic-ip.com

Manufacturer: SABIC Innovative Plastics

251 South Bailey Road

Thorndale, Pennsylvania 19372

United States

Emergency Telephone Number: 800/447-4545

Emergency Transportation/CHEMTREC 800 424-9300 (USA)

(24 HOUR): +1 703-527-3887 (globally, outside USA)

E-mail: productinguiries@sabic-ip.com

2. COMPOSITION/INFORMATION ON INGREDIENTS

HAZARDOUS COMPONENTS:

	· •··-··•·			
Chemical Name	CAS Number	Weight %		
Titanium dioxide	13463-67-7	0.1 - 1.0		

If present, components listed above are physical or health hazards as defined in the Hazard Communication Standard. The quantities represent typical or average values for the materials shown. Additional compositional data are provided in Section 15, REGULATORY INFORMATION.

Product Name: COLORCOMP M-1000 GY0-302-3 Page 1 of 10 Revision date: 05-Dec-2012

3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW:

- Pellets with slight or no odor
- · Spilled material may create slipping hazard
- Can burn in a fire creating dense, toxic smoke
- Molten plastic can cause severe thermal burns
- Fumes produced during melt processing may cause eye, skin, and respiratory tract irritation. Severe over-exposure may result in nausea, headache, chills, and fever. See below for additional effects.
- Secondary operations, such as grinding, sanding, or sawing can produce dust which may present an explosion or respiratory hazard

	Hazaru.			
HMIS	Rating	Health: 0	Flammability: 1	Reactivity: 0
	Skin Contact:		Not a	a hazard with pellets during normal industrial use.
	Eye Contact:		Resin to eye	n particles, like other inert materials, are mechanically irritating es.
	Inhalation:		Pellet	t inhalation unlikely due to physical form.
	Ingestion:		Pellet	t ingestion unlikely due to physical form.
	Sensitization:		No info	formation available on this product
	Other Information:		crysta preser materi are sh the pla	A, IARC and/or NTP have listed carbon, titanium dioxide, alline silica (quartz), respirable glass and certain heavy metals, ent in some colorants and fillers, as carcinogens. If these rials are present in this product at significant quantities, they hown in Section 2/3. These materials are essentially bound to lastic matrix and are unlikely to contribute to workplace sure under recommended processing conditions.
Chron	ic/Carcinogenic In	formation		
	Chronic Toxicity:		No infe	oformation available
	Processing Issues	:	respira heada conde	essing vapors may cause irritation to the eyes, skin, and ratory tract. In cases of severe exposure, nausea and lache can also occur. Grease-like processing vapor ensates on ventilation ductwork, molds, and other surfaces cause irritation and injury to skin.
	Aggravated Medica	al Conditions:	aggrav individ	ICAL RESTRICTIONS: There are no known health effects avated by exposure to this product. However, certain sensitive iduals and individuals with respiratory impairments may be ted by exposure to components in the processing vapors.

Product Name: COLORCOMP M-1000 GY0-302-3 Page 2 of 10 Revision date: 05-Dec-2012

4. FIRST AID MEASURES

If Inhalation: Move to fresh air in case of accidental inhalation of fumes from

overheating or combustion. If symptoms persist, call a physician.

On skin contact: Immediately cool the skin by rinsing with cold water after contact

with hot material. Wash off immediately with soap and plenty of

water. Consult a physician.

On contact with eyes: Immediately flush with plenty of water. After initial flushing, remove

any contact lenses and continue flushing for at least 15 minutes. If

eye irritation persists, consult a specialist.

On ingestion: No hazards which require special first aid measures.

Precautions: Processing vapors inhalation may be irritating to the respiratory

tract. If symptoms are experienced remove victim from the source of contamination or move victim to fresh air and obtain medical

advice.

5. FIRE-FIGHTING MEASURES

Autoignition Temperature: No information available

Explosive Limits

upper: Not determined lower: Not determined

Suitable Extinguishing Media: Use dry chemical, CO2, water spray or "alcohol" foam. Water is the

best extinguishing medium. Carbon dioxide and dry chemical are not generally recommended because their lack of cooling capacity may permit re-ignition on larger resin fires (blobs, drools, etc.).

Unsuitable Extinguishing Media for Safety Reasons: Do not use a solid water stream as it may scatter and spread fire.

Hazards from Combustion Products: Fire will produce dense black smoke containing hazardous

combustion products, carbon oxides, hydrocarbon fragments.

Special Protective Equipment for Firefighters:

Do not enter fire area without proper protection including self-

contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products.

Specific Hazards: Take precautionary measures against static discharges. During

processing, dust may form explosive mixture in air. Thermal decomposition can lead to release of irritating gases and vapors.

6. ACCIDENTAL RELEASE MEASURES

Clean up: Sweep up and shovel into suitable containers for disposal. Do not

create a powder cloud by using a brush or compressed air.

Personal Precautions: See section 8.

Environmental Precautions: Do not flush into surface water or sanitary sewer system. Should

not be released into the environment.

7. HANDLING AND STORAGE

Handling: Handle in accordance with good industrial hygiene and safety

practices. Provide for appropriate exhaust ventilation and dust collection at machinery. Avoid dust formation. All metal parts of the

mixing and processing equipment must be earthed.

Storage: Store in closed container in a dry and cool area. Keep away from

heat sources and sources of ignition.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits:

No components with information, unless noted below

Chemical Name	US OSHA PEL	ACGIH	Canada - Alberta	Mexico OEL Data	SABIC Recom.(8 Hr)*
	(8 Hr)		(8 Hr)		
Titanium dioxide	FRL_TWA: 5 mg/m ³	TWA: 10 mg/m ³ ;	OEL_8 hr: 10 mg/m ³ ;	LMPE-PPT: 10 mg/m ³	No Information

	Respirable fraction, 15	Crit Eff: Lower			
	mg/m3 Total dust	respiratory tract			
		irritation			

^{*}SABIC Recommended Exposure Limits have been established for certain chemicals.

Engineering Measures to Reduce Exposure: Handle in accordance with good industrial hygiene and safety

practice. Provide for appropriate exhaust ventilation at machinery. Processing fume condensate may be a fire hazard and toxic; remove periodically from exhaust hoods, ductwork, and other

surfaces using appropriate personal protection.

Hand Protection: Protective gloves should be worn

Eye Protection: Safety glasses with side-shields or chemical goggles. In addition,

use full-face shield when cleaning processing vapor condensates

from hood, ducts, and other surfaces.

Respiratory Protection: When using this product at elevated temperatures, implement

engineering systems, administrative controls or a respiratory protection program (including a respirator approved for protection from organic vapors, acid, gases, and particulate matter) if processing vapors are not adequately controlled or operators experience symptoms of overexposure. If dust or powder are produced from secondary operations such as sawing or grinding,

use a respirator approved for protection from dust.

Body Protection: Long sleeved clothing

Hygiene Measures: When using, do not eat, drink or smoke.

Product Name: COLORCOMP M-1000 GY0-302-3 Page 5 of 10 Revision date: 05-Dec-2012

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State:SolidAppearance:PelletsColor:VariesOdor:None or slight

Melting point/range: This product does not exhibit a sharp melting point but softens

gradually over a wide range of temperatures.

Autoignition Temperature: No information available

Vapor Pressure:NegligibleWater Solubility:InsolubleEvaporation Rate:Negligible

Specific gravity: >1; (water = 1)
VOC content (%): Negligible

Explosive Limits

upper: Not determined lower: Not determined

10. STABILITY AND REACTIVITY

Stability: Stable under ambient conditions. Hazardous polymerization does

not occur.

Conditions to Avoid:To avoid thermal decomposition, avoid elevated temperatures.

Heating can result in the formation of gaseous decomposition products, some of which may be hazardous. Do not exceed melt temperature recommendations in product literature. Purgings of hot material should be collected in small, flat, thin shapes and quenched with water to allow for rapid cooling. Do not allow product to remain in barrel at elevated temperatures for extended

periods of time.

Hazardous Decomposition Products: Process vapors under recommended processing conditions may

include trace levels of hydrocarbons, carbon oxides, aldehydes,

alcohols, organic acids.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity LD50/oral/rat: >5000 mg/kg

Subchronic Toxicity:

LD50/dermal/rabbit: >2000 mg/kg

Inhalation: Pellet inhalation unlikely due to physical form.

Eye Contact: Resin particles, like other inert materials, are mechanically irritating

to eyes.

Skin Contact: Not a hazard with pellets during normal industrial use.

Ingestion: Pellet ingestion unlikely due to physical form.

Chronic Toxicity: No information available

Primary Irritation: Substance does not generally irritate and is only mildly irritating to

the skin.

IARC: Not listed
OSHA: Not regulated
NTP: Not tested

Remarks: The toxicological data has been taken from products of similar

composition.

Special Studies: Titanium Dioxide: The International Agency for Research on

Cancer (IARC) has determined titanium dioxide to be a possible human carcinogen (class 2B) based on evidence in experimental animals. Rats exposed to high doses of titanium dioxide by inhalation or intratracheal instillation showed an increased

incidence of lung tumors.

No information available

12. ECOLOGICAL INFORMATION

Ecotoxicity Effects: Do not flush into surface water or sanitary sewer system.

Other information: Ecological damages are not known or expected under normal use.

13. DISPOSAL CONSIDERATIONS

Waste Disposal: Recycling is encouraged. Landfill or incinerate in accordance with

federal, state and local requirements. Collected processing fume condensates and incinerator ash should be tested to determine

waste classification.

14. TRANSPORT INFORMATION

Transport Classification:

Not regulated as hazardous for shipment, unless noted below, under current transportation guidelines.

DOT

ADR/RID/ADN

Product Name: COLORCOMP M-1000 GY0-302-3 Page 8 of 10 Revision date: 05-Dec-2012

15. REGULATORY INFORMATION

International Inventories:

TSCA (USA): Listed Listed DSL (Canada): **EINECS/ELINCS (Europe):** Not listed ENCS (Japan): Not listed IECSC (China): Not listed KECL (Korea): Not listed PICCS (Philippines): Not listed AICS (Australia): Listed NZIoC (New Zealand): Not listed

Other Inventory Information:

A "Listed" entry above means all chemical components are on the respective inventory list and/or a qualifying exemption exists for one or more components. A "Not listed" entry above indicates one or more components is restricted from import or manufacture into that country/region. Articles are exempt from registration and are therefore not listed on the national chemical inventories.

SARA (313) Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA)

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and and Title 40 of the Code of Federal Regulations, Part 372.

SARA (311, 312) hazard class:

Acute Health Hazard	N
Chronic Health Hazard	N
Fire Hazard	N
Sudden Release of Pressure Hazard	N
Reactive Hazard	N

Canada:

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.

WHMIS hazard class:

Non-controlled

California Proposition 65:

Components in this product known to the State of California to cause cancer and/or reproductive effects, are listed below:

to the control of the			
Chemical Name	Weight %	California Proposition 65:	
Titanium dioxide 13463-67-7	0.1 - 1.0	Listed: September 2, 2011 Carcinogenic. (airborne, unbound particles of respirable size)
