

SABIC® PP COMPOUND T2E-19T1040

PP COMPOUND MINERAL FILLED

DESCRIPTION

SABIC® PP compound T2E-19T1040 is a Polypropylene compound, which is formulated with 25 wt% recycled plastics. The grade is part of SABIC's TRUCIRCLE™ portfolio and services. The material's higher filler level results in very high stiffness. High stiffness combined with superior flow and good thermal stabilization makes the grade especially suited for complex injectionmolding applications requiring very high modulus and high thermal stability.
