

# SAFETY DATA SHEET According to Regulation (EC) No 1907/2006 and 453/2010 (REACH)

Print date: 28-Apr-2015 Revision Number: 2 Revision date: 28-Apr-2015

#### 1. IDENTIFICATION OF THE SUBSTAND AND COMPANY

**Trademark:** NORYL™ **Product Code:** 6390C - 100

Product Description: Polyphenylene ether [CASRN 25134-01-4]/High impact polystyrene [CASRN 9003-55-8]

and/or polystyrene [CASRN 9003-53-6] blend

Product Type: Commercial Product

**Recommended use:** May be used to produce molded or extruded articles or as a component of other industrial

products.

**Company:** SABIC Innovative Plastics B.V.

Plasticslaan 1 P.O. Box 117

4600 AC Bergen op Zoom

The Netherlands

Manufacturer: SABIC Innovative Plastics B.V.

Plasticslaan 1 P.O. Box 117

4600 AC Bergen Op Zoom

The Netherlands

Emergency Telephone Number: Bergen op Zoom +31(0)164-292911 (24/24)

Emergency 800 424-9300 (USA)

Transportation/CHEMTREC

(24 HOUR):

Website Address: www.sabic-ip.com

#### 2. HAZARDS IDENTIFICATION

The additives in this product are bound in a thermoplastic resin matrix. In accordance with GHS for the classification of the product, the hazard potential may be assessed with respect to the physico-chemical form and/or bioavailability of the individual components in the thermoplastic resin.

Where GHS classifications are shown below, these are based on the individual components in the thermoplastic resin matrix. Under the typical use conditions for the resin, these hazardous components are unlikely to contribute to workplace exposure. Please read the entire safety data sheet and/or consult an EHS professional for a complete understanding.

Classification of the substance or mixture

REGULATION (EC) No 1272/2008

Not hazardous Not classified

Classification according to EU Directives 67/548/EEC or 1999/45/EC

Product Name: 6390C-100 Page 1 of 8 Revision date: 28-Apr-2015

## CLP/GHS-Labeling

GHS Labeling not required

#### **Precautionary Statements**

No GHS specific Precautionary Statements required - observe all other warnings and handling instructions in this SDS.

Other hazards which do not result in classification:

#### **SABIC Emergency Overview**

- · Pellets with slight or no odor
- Spilled material may create slipping hazard
- · Can burn in a fire creating dense, toxic smoke
- Molten plastic can cause severe thermal burns
- Fumes produced during melt processing may cause eye, skin, and respiratory tract irritation. Severe over-exposure may result in nausea, headache, chills, and fever. See below for additional effects.
- Secondary operations, such as grinding, sanding, or sawing can produce dust which may present an explosion or respiratory hazard.

Other Information: Cool skin rapidly with cold water after contact with molten material. Heating can release

hazardous gases. Hazardous fumes can also occur in post-processing operations.

Processing Issues: Processing vapors may cause irritation to the eyes, skin, and respiratory tract. In cases of

severe exposure, nausea and headache can also occur. Grease-like processing vapor condensates on ventilation ductwork, molds, and other surfaces can cause irritation and

njury to skin.

Aggravated Medical Conditions: MEDICAL RESTRICTIONS: There are no known health effects aggravated by exposure to

this product. However, certain sensitive individuals and individuals with respiratory impairments may be affected by exposure to components in the processing vapors.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Product Type Mixture

For the full text of the H-phrases, if mentioned in this section, see Section 16. For the full text of the R-phrases, if mentioned in this Section, see Section 16.

The non-hazardous components and exact percentage (concentration) of the composition have been withheld as a trade secret.

This product consists primarily of high molecular weight polymers which are not expected to be hazardous. The ingredients in this product are present within the polymer matrix and are not expected to be hazardous.

Product Name: 6390C-100 Page 2 of 8 Revision date: 28-Apr-2015

#### 4. FIRST AID MEASURES

If Inhalation: Move to fresh air in case of accidental inhalation of fumes from overheating or combustion

If symptoms persist, call a physician

On skin contact: Wash off immediately with soap and plenty of water Immediately cool the skin by rinsing

with cold water after contact with hot material Consult a physician

Immediately flush with plenty of water. After initial flushing, remove any contact lenses and On contact with eyes:

continue flushing for at least 15 minutes If eye irritation persists, consult a specialist

No hazards which require special first aid measures On ingestion:

**Precautions:** Cool molten product on skin with plenty of water. Do not remove solidified product Do not

peel polymer from the skin

## 5. FIRE-FIGHTING MEASURES

**Autoignition Temperature:** 490 °C (914°F) estimated

**Explosive Limits** 

upper: Not determined

Not determined lower:

Suitable Extinguishing Media: Use dry chemical, CO2, water spray or "alcohol" foam. Water is the best extinguishing

> medium. Carbon dioxide and dry chemical are not generally recommended because their lack of cooling capacity may permit re-ignition on larger resin fires (blobs, drools, etc.)

for Safety Reasons:

Unsuitable Extinguishing Media Do not use a solid water stream as it may scatter and spread fire

**Hazardous Decomposition** 

**Products:** 

Fire will produce dense black smoke containing hazardous combustion products carbon

oxides hydrocarbons fragments

**Hazards from Combustion** 

**Products:** 

Fire will produce dense black smoke containing hazardous combustion products, carbon

oxides, hydrocarbon fragments.

**Special Protective Equipment** 

for Firefighters:

In the event of fire, wear self-contained breathing apparatus (EU: NEN-EN137)

Take precautionary measures against static discharges During processing, dust may form **Specific Hazards:** 

explosive mixture in air Thermal decomposition can lead to release of irritating gases and

vapors

Product Name: 6390C-100 Page 3 of 8 Revision date: 28-Apr-2015

## **6. ACCIDENTAL RELEASE MEASURES**

Clean up: Sweep up and shovel into suitable containers for disposal. Do not create a powder cloud by

using a brush or compressed air.

Personal Precautions: See section 8.

Environmental Precautions: Do not flush into surface water or sanitary sewer system. Material should not be released

into the environment.

## 7. HANDLING AND STORAGE

**Handling:** Handle in accordance with good industrial hygiene and safety practices. Provide for

appropriate exhaust ventilation and dust collection at machinery. Avoid dust formation. All

metal parts of the mixing and processing equipment must be earthed.

Storage: Store in closed container in a dry and cool area. Keep away from heat sources and sources

of ignition.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No components with information, unless noted below

\*SABIC Recommended Exposure Limits have been established for certain chemicals.

**Engineering Measures** 

toExposure:

In the case of hazardous fumes, wear self-contained breathing apparatus. Wear face-shield and protective suit for abnormal processing problems. Handle in accordance with good industrial hygiene and safety practice. Provide for appropriate exhaust ventilation at

machinery.

**Hand Protection:** Protective gloves should be worn. (EU: NEN-EN 374).

**Eye Protection:** Safety glasses with side-shields. (EU: NEN-EN 165-166).

**Respiratory Protection:** In the case of hazardous fumes, wear self contained breathing apparatus. In case of

insufficient ventilation wear suitable respiratory equipment. (EU: NEN-EN149).

**Body Protection:** Long sleeved clothing. (EU: NEN-EN 340-369-465).

**Hygiene Measures:** When using, do not eat, drink or smoke.

Product Name: 6390C-100 Page 4 of 8 Revision date: 28-Apr-2015

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Solid Appearance: Pellets

Color: Same as color code

Odor: Slight

Melting point/range: Various

Autoignition Temperature: 490 °C (914°F) estimated

Vapor Pressure: Negligible

Water Solubility: Insoluble Evaporation Rate: Negligible

Specific gravity: >1; (water = 1)
VOC content (%): Negligible

**Explosive Limits** 

Explosion Limits Not determined

upper: Not determined ts Not determined

Explosion Limits

Not determined

Not determined

## 10. STABILITY AND REACTIVITY

Stability: Stable under ambient conditions. Hazardous polymerization does not occur.

Conditions to Avoid: To avoid thermal decomposition, avoid elevated temperatures. Heating can result in the

formation of gaseous decomposition products, some of which may be hazardous. Avoid

temperatures above 490 °C without adequate ventilation.

**Hazardous Decomposition** 

**Products:** 

Traces of, styrene, toluene, styrene dimers, aliphatic amines, aldehydes and alcohols,

ethylbenzene and 4-vinylcyclohexene.

**Incompatible Products:** Strong acids, strong oxidizing agents.

Product Name: 6390C-100 Page 5 of 8 Revision date: 28-Apr-2015

## 11. TOXICOLOGICAL INFORMATION

**LD50/oral/rat:** >5000 mg/kg

LD50/dermal/rabbit:

Subchronic Toxicity: No information available In a 13 week dust inhalation study, laboratory rats were exposed

to up to 50 mg/m³ PPE dust for 6 hrs/day for 13 weeks with a 13-week non-exposure recovery period. There was no evidence of systemic toxicity at the highest dose. Localized toxicity was observed in the lungs and regional lymph nodes of the 50 mg/m³ exposure group. These findings decreased in severity in the 7 and 1 mg/m³ exposure groups. A no adverse effect level for PPE is estimated to be 7 mg/m³ and a no observable effect level is

1 mg/m<sup>3</sup>.

>2000 mg/kg

Primary Irritation: Substance does not generally irritate and is only mildly irritating to the skin

IARC: Not listed

OSHA: Not regulated

NTP: Not tested

Remarks: The toxicological data has been taken from products of similar composition

Special Studies: Polyphenylene ether: In two independent 2 year dietary studies, purebred beagles and

laboratory rats were fed polyphenylene ether resin powder (up to 10% by weight in the animal diet). In both studies, there were no adverse effects on physical appearance, behavior, growth, food consumption, survival, clinical laboratory results, organ weights or gross or microscopic pathology. In a 6 month chronic inhalation study, rats and guinea pigs exposed 6 hrs/day to up to 300 mg/m³ PPE dust developed no physical, nutritional,

hematologic, clinical or pathological reaction except to lung tissue changes which consisted of macrophage accumulation, many of which were degenerative in the pulmonary alveoli. Polyphenylene ether is not a mutagen by Ames (Salmonella) Assay with and without

activation.

#### 12. ECOLOGICAL INFORMATION

**Ecotoxicity Effects:** Do not flush into surface water or sanitary sewer system.

Ecotoxicity - Invertebrate Data: Ecological damages are not known or expected under normal use.

Germany VCI (WGK): 0

#### 13. DISPOSAL CONSIDERATIONS

Waste from residues / unused

products:

Where possible recycling is preferred to disposal or incineration. Dispose of in accordance with least regulations

with local regulations.

Contaminated Packaging: Empty containers should be transported/delivered using a registered waste carrier for local

recycling or waste disposal.

**EWC waste disposal no:** 702 - waste from the manufacture, formulation, supply and use of plastics, synthetic rubber

and man-made fibres.

Product Name: 6390C-100 Page 6 of 8 Revision date: 28-Apr-2015

#### 14. TRANSPORT INFORMATION

**Transport Classification:** 

Not regulated as hazardous for shipment, unless noted below, under current transportation

auidelines.

DOT

ADR/RID/ADN

**IMDG** 

ICAO

IATA-DGR

## 15. REGULATORY INFORMATION

This substance is classified and labelled according to Annex I of Directive 67/548/EEC, as amended.

#### **International Inventories:**

TSCA (USA): Listed DSL (Canada): Listed **EINECS/ELINCS (Europe):** Listed **ENCS (Japan):** Listed IECSC (China): Listed **KECL** (Korea): Listed PICCS (Philippines): Listed Listed AICS (Australia): NZIoC (New Zealand): Listed

**REACH Information:** For this product's REACH related information, please contact webinquiries@sabic-ip.com

#### **Other Inventory Information:**

A "Listed" entry above means all chemical components are on the respective inventory list and/or a qualifying exemption exists for one or more components. A "Not listed" entry above indicates one or more components is restricted from import or manufacture into that country/region. Articles are exempt from registration and are therefore not listed on the national chemical inventories.

#### SVHC (REACH Regulation (EC) No 1907/2006 and 453/2010, as amended):

This product does not intentionally contain SVHC chemicals except as noted below. Incidental amounts of impurities, if present, would be below the threshold limit of 0.1% by weight.

#### **California Proposition 65:**

Components in this product known to the State of California to cause cancer and/or reproductive effects, are listed below:

Chemical Name	Weight %	California Proposition 65:
Toluene	0.01-0.10	Type of Toxicity: female; Type of Reproductive Toxicity: developmental
108-88-3		

#### RoHS EU Directive 2011/65/EU:

The subject product is in compliance with EU RoHS Directive 2011/65/EU. All below chemicals are not employed in the manufacture of the product: a.Cadmium and its compounds, b.Lead and its compounds, c.Mercury and its compounds, d.Hexavalent chromium compounds, e.Polybrominated biphenyls (PBBs), f.Polybrominated diphenyl ethers (PBDEs including Deca-BDE). The trace levels of heavy metals may be present as impurities within threshold limits (<0.1% for Pb, Hg, Cr VI, and <0.01% for Cd). We are disclosing this information, to the best of our knowledge, based upon data from our raw material manufacturers.

Product Name: 6390C-100 Page 7 of 8 Revision date: 28-Apr-2015
