

## Technical Data Sheet

**Schulblend M/MK K2004 SF BLK71735**

Acrylonitrile Butadiene Styrene + PA

**Product Description**

Easy flow high impact ABS/PA 6 blend; UV stabilised

|                          |                                   |
|--------------------------|-----------------------------------|
| <b>Processing Method</b> | Injection Molding                 |
| <b>Attribute</b>         | Good Flow; High Impact Resistance |
| <b>Additive</b>          | UV Stabilizer                     |

| <b>Typical Properties</b>                                           | <b>Nominal Value</b> | <b>Units</b>            | <b>Test Method</b>   |
|---------------------------------------------------------------------|----------------------|-------------------------|----------------------|
| <b>Physical</b>                                                     |                      |                         |                      |
| Melt Volume Flow Rate, (250 °C/5.0 kg)                              | 13                   | cm <sup>3</sup> /10 min | ISO 1133             |
| Density, (Method A)                                                 | 1.08                 | g/cm <sup>3</sup>       | ISO 1183             |
| <b>Mechanical</b>                                                   |                      |                         |                      |
| Tensile Stress at Yield, (Type 1A, 50 mm/min)                       | 44.0                 | MPa                     | ISO 527-2            |
| Tensile Strain at Yield, (Type 1A, 50 mm/min)                       | 4.0                  | %                       | ISO 527-2            |
| Tensile Modulus, (1 mm/min, Type 1A)                                | 1650                 | MPa                     | ISO 527-1            |
| <b>Impact</b>                                                       |                      |                         |                      |
| Charpy Impact Strength - Notched                                    |                      |                         |                      |
| (23 °C, Type 1, Edgewise, Notch A)                                  | 80                   | kJ/m <sup>2</sup>       | ISO 179              |
| (-30 °C, Type 1, Edgewise, Notch A)                                 | 18                   | kJ/m <sup>2</sup>       | ISO 179              |
| Charpy Impact Strength - Unnotched                                  |                      |                         |                      |
| (23 °C, Type 1, Edgewise)                                           | No Break             |                         | ISO 179              |
| (-30 °C, Type 1, Edgewise)                                          | No Break             |                         | ISO 179              |
| <b>Thermal</b>                                                      |                      |                         |                      |
| Vicat Softening Temperature, (B (50N), 50 °C/h)                     | 129                  | °C                      | ISO 306              |
| Deflection Temperature Under Load Unannealed (1.80 MPa), (Flatwise) | 75.0                 | °C                      | ISO 75-2/A           |
| <b>UL Information</b>                                               |                      |                         |                      |
| Flammability Classification, (1.6 mm)                               | HB                   |                         | IEC 60695-11-10, -20 |
