

LS070

Description

LS070, homopolymer made by suspension polymerization can be applied to injection and calendaring process.

Application

Fitting, Tile, Deco Sheet, Board Sheet, Foam Board Sheet,
Automotive Parts, Package

Properties	Method	Unit	LS070	Condition
Degree of Polymerization	LG Method PVC03		700±30	
K-value			58	
Particle Size	LG Method PVC04	%	Max 0.07	45 Mesh
Bulk Density	LG Method PVC01	g/cm ³	0.61±0.03	
Density			1.4	23°C
Volatiles	LG Method PVC02	%	Max 0.20
